Nigeria plans to create digital jobs for its teeming youth population, Vice President Kashim Shettima told Google Africa executives during a meeting in Abuja. Shettima did not provide a timeline for creating the jobs.

Google Africa executives said a grant from its philanthropic arm in partnership with Data Science Nigeria and the Creative Industry Initiative for Africa will facilitate the programme.

Shettima said Google's initiative aligned with the government's commitment to increase youth participation in the digital economy. The government is also working with the country's banks on the project, Shettima added.

15 startups revealed for Google's accelerator programme for women in Africa

9 Mar 2023

Google director for West Africa Olumide Balogun said the company would commit funds and provide digital skills to women and young people in Nigeria and also enable startups to grow, which will create jobs.

Google is committed to investing in digital infrastructure across Africa, Charles Murito, Google Africa's director of government relations and public policy, said during the meeting, adding that digital transformation can be a job enabler.

(\$1 = 759.00 naira)
