\* Based on analysis  
Preparation: Reconstituted  
4 years and older.

Actual: 100% 24  
Values for individuals  
per single serving.

Ceres has invested R100m into the SIG Combismile a packaging solution that is the first of its kind in the Middle East and Africa region (EMA).

The new carton has a curved, modern shape which is easy to grip offering the consumer an easy and convenient way to enjoy the product on the go.

Whether for travel or business, school lunch or homework, study break or a refreshing cool-down after a work-out at the gym, the new leak-proof Ceres 200ml is the perfect fit. "The easily recognisable package is designed to fit your lifestyle and is perfect to take with you wherever you go," says Beverly Wilson, Marketing Manager at Pioneer Foods.

Ceres Fruit Juices is committed to minimising and managing its environmental impact wherever possible, and so the new 200ml CombiSmile juice pack is made from sustainable plant-based packaging and hence is one of the most environmentally friendly packaging solutions currently available. The packs are recyclable and the layered carton includes plastic and cardboard with an inner foil to prevent oxidation.

"While the packaging is new, you can be assured of the same quality product - a juice serving that is flavourful and delicious," says Neethling.

Neethling concludes, "We are really excited to introduce the new packaging and offer our consumers something that is fresh, modern and in line with the superior craftsmanship they have come to expect from Ceres juices ."
