

# Skin Renewal opens new doors for the 19th time with Century City clinic

Issued by [Skin Renewal](#)

24 Nov 2022

Testament to the continued and purpose-driven year-on-year growth of one of South Africa's leading aesthetics clinic brands, the Skin Renewal Group is finishing 2022 stronger than ever with the opening of its 19th clinic, [Century City](#). A long-identified and much-needed link in the Skin Renewal chain, the new branch makes world-class, industry leading aesthetic and holistic wellness accessible to patients based in Blouberg, Milnerton, Table View, Melkbos and other addresses up the West Coast as well as to the Century City node.

As CEO [Victor Snyders](#) explains, *"For us, it's always about more than growing our nationwide presence, it's about growing the people we work with and come to work for; transforming the lives that walk through our doors and cross our paths; and investing in the country we're proud to call home."*

As with each and every [Skin Renewal clinic](#), since the very first one opened in 2005 by the company's founder, Dr Maureen Allem, the luxurious Skin Renewal Century City is staffed by the best in the business, including its resident doctors – and long-time Skin Renewal family members – [Dr Ross Connor](#) and [Dr Helenka Fourie](#). Both bring a wealth of aesthetic medicine and anti-ageing experience to the new branch, having built impressive reputations within the Group and the broader aesthetics community. Dr Ross and Dr Helenka are supported by a team of qualified and experienced medically trained therapists all of whom receive ongoing in house training by Skin Renewal founder and medical director [Dr Maureen Allem](#) and the in-house training team.

The Skin Renewal brand has come a long way since its first and only address 17 years ago. *“The past two years have not been without its challenges, which makes the opening of our 19th clinic a milestone we are grateful for,”* says Dr Maureen Allem. *“We are privileged to be in the position to continue to grow and we head into 2023 as invested and passionate as ever about offering the best technologies and methods available in the industry and transforming lives.”*

The new Century City clinic offers a full range of medical aesthetic treatments including injectables, dermal fillers and thread lifts, as well as a wide range of medical grade technology including lasers (Fraxel&Cutera), CO<sub>2</sub> laser skin resurfacing, radio frequency, light, carboxytherapy, mesotherapy, microdermabrasion, laser hair removal and medical grade peels.

Skin Renewal is part of the Renewal Institute, aiming to encourage patients to optimise their health and wellbeing whilst looking and feeling their best. Each of the 19 Skin Renewal clinics nationwide are staffed by a team of highly skilled medical aesthetic doctors and medically trained therapists.
