

Front-end Developer

Location:	Pretoria
Job level:	Senior
Own transport required:	Yes
Type:	Permanent
Reference:	##Front05
Company:	MDA Datasaint

Matrix Design Africa - DataSaint is looking for an experienced front-end developer to join our team.

With a mission to design, develop, and market intelligent business solutions, Matrix Design Africa - DataSaint has been a stalwart presence for over 35+ years.

We are a small yet rapidly growing organisation, driven by a high-impact team dedicated to building top-tier products with passion and commitment.

Role based in Pretoria East; we offer full-time, permanent, in-office roles (no fully remote positions available).

Required:

- At least five years of direct work experience as a software developer (non-negotiable)
- Proficiency in React and TypeScript and C# and other technologies such as Angular, with a strong grasp of web development fundamentals including HTML, CSS, and JavaScript
- Knowledge of backend software development technologies being used: SQL, Visual Studio, ASP.Net Core is not a requirement but will be beneficial and preferred
- Expert front-end development experience, with a proven track record of leading projects and teams
- Embrace our culture and values to become a long-term, indispensable team member
- Demonstrate a stable work track record
- Tertiary qualification in computer science, information technology, or a related field
