

Discovery Invest Leadership Summit

More than 1 600 delegates attended the second annual Discovery Invest Leadership Summit in Sandton where they experienced cutting-edge leadership insights by some of the world's top business minds.

In the current global environment where corruption, debt and lack of vision seems to be the order of the day, an elite group of forward-thinking business minds illustrated the true essence of good leadership.

The impressive line-up included Tokyo Sexwale, Adrian Gore, Dr Mamphela Ramphele, Nassim Taleb, Stephen Dubner, Johann Rupert and Rudy Giuliani.

Sponsors of the summit, Discovery Invest, as well as the organisers, Synchronised Marketing & Event Agency, were overwhelmed by the South African business sector's positive response to this year's event and word is out that the 2011 summit will be even more impressive!
