The impact awards were conceptualised so as to develop a repository of demonstration cases for impact investing in Africa. Africa faces deep developmental issues and, according to the latest OECD data, has a sustainable financing gap of approximately R1.6tn until 2030. Impact investing has a critical role to play in crowding in private sector investors to help fund groundbreaking solutions that achieve both a positive social or environmental impact and generate a return on investment.

These investment strategies contribute to development solutions in a sustainable way, reducing over-reliance on aid while relieving pressure on government finances. Ultimately, the Africa Impact Investment Awards seek to boost capital flows to Africa by recognising how organisations across the entire ecosystem are innovating to achieve excellence in the rapidly growing field.

To amplify the reach and exposure of the impact awards, the winners will be announced at the Africa Impact Summit, organised by the Africa Impact Investing Group, which is taking place in Nairobi, Kenya from 17-19 July 2024. Also in its second year, the Impact Summit is expected to attract 450 delegates from more than 20 countries across the continent and beyond.

This year organisations or individuals can enter for the following awards categories:

**1. Social enterprise of the year:**

Awarded to social enterprises, ie. businesses that aim to generate profit and have positive social or environmental impact, that are solving some of the continent's most entrenched social or environmental problems.

**2. Impact funder of the year:**

Funders deploying capital to support impact projects. Can include pension funds, endowments, corporations, banks, governments, development finance institutions, high net-worth individuals, and public funders will be eligible for consideration. The award will seek to highlight funders who opted for a non-traditional funding approach, either as a provider of catalytic capital or a third party investor deploying capital into an innovative structure.

**3. Financial structure of the year:**

This award is specifically for the innovative financial structures using new instruments and other mechanisms for impact investments. Innovations can include funding instruments or structures, impact delivery mechanisms and innovation in lending schemes to targeted beneficiaries.

**4. Impact fund of the year:**

This award recognises fund managers who have excelled with a dedicated impact investment fund within their investment house.

**5. Impact intermediary of the year:**

This award recognises intermediaries that support and enable impact investing, including arrangers, accelerators, incubators, government departments, research & consulting firms, policy think-tanks or professional services companies that promote impact investments through thought leadership, project implementations and advisory work.

**6. Outstanding individual achievement of the year:**

This award is for an individual that has made an outstanding contribution in the past year to support the growth of the impact investments ecosystem.
