# ArchiMate 3.2

ArchiMate 3.2 Training is a three-day course that ensures delegates are knowledgeable about the ArchiMate 3.2 standard.

The ArchiMate 3.2 standard is The Open Group's open and independent modelling language for enterprise architecture that provides instruments to enable enterprise architects to describe, analyse, and visualise the relationships among business domains unambiguously.

The ArchiMate standard is not competing with domain-specific languages like BPMN or UML but is rather a complimentary language that describes the main concepts within the business, application and technology domains as well as creating linkages between these different domains

The ArchiMate standard is fully aligned with the TOGAF standard and supports modelling throughout the Architecture Development Method (ADM).
All aspects of the ArchiMate 3.2 standard are discussed, including the ArchiMate meta-model, language structure, viewpoints and language extensions. Examples and exercises are used throughout the course to make the theory practical.

**Date:** 19 February 2024 **to** 21 February 2024
**Time:** 08:30 - 16:30
**Venue:** 25 Linksfield Road, Dunvegan, Edenvale, Johannesburg

**Date:** 20 May 2024 **to** 22 May 2024
**Time:** 08:30 - 16:30
**Venue:** Live, Virtual Course, Johannesburg

**Date:** 12 August 2024 **to** 14 August 2024
**Time:** 08:30 - 16:30
**Venue:** 25 Linksfield Road, Dunvegan, Edenvale, Johannesburg

**Date:** 18 November 2024 **to** 20 November 2024
**Time:** 08:30 - 16:30
**Venue:** Live, Virtual Course, Johannesburg
