

# Black Friday media coverage 2023

By [Katherine McInnes](#), issued by [Meltwater](#)

1 Dec 2023

[Meltwater](#), a global leader in media, social and consumer intelligence, used media monitoring and social listening to derive data surrounding the conversations pertaining to Black Friday and Cyber Monday over online and social media in South Africa.

Within the analysed period, media coverage surrounding Black Friday and Cyber Monday received the highest volume of media mentions on Friday the 24th of November. The majority of content shared on this topic was published via social media. Interestingly, overall mentions decreased by 8% and social media mentions decreased by 36% compared to the previous year. The decrease in mentions and conversations around Black Friday could be as a result of South African consumers feeling the effects of the current economic climate.

Meltwater's media monitoring tools were used to derive data surrounding the conversations pertaining to Black Friday and Cyber Monday over online and social media (Meta Data is sampled). The media mentions measured within this report focuses on content published in South Africa. Within the analysed period, media coverage surrounding Black Friday and Cyber Monday received the highest volume of media mentions on the 24th of November. The majority of content shared on this topic was published via social media. Overall, media mentions around Black Friday and Cyber Monday decreased in comparison to the previous year.
