

Senior C# Developer - Back End

Remuneration:	basic salary
Location:	Centurion
Education level:	Diploma
Job level:	Senior
Type:	Permanent
Reference:	#NF58948
Company:	E-Merge IT Recruitment

New work in at an industry leader and global online Digi tech shop (the best there is). This team culture is like no other, suited to a 20-something to 30-something tech genius and sport junkie. The current need is for a **senior C# developer with key skill in C#, .NET Core, Microservices, and SOLID principles**.

This is your big chance to leverage your skills in a high-energy culture, learn new tech tricks of the trade among the world's top techies by enhancing the systems performance and contributing to new and existing initiatives. Beyond the work itself, you will also enjoy the flexibility of a hybrid working model and cool company soft perks (such as free lunch) for the two days you are in the office per week.

This is what you need to land an interview:

- 8 to 10 years' experience in hardcore development working with C#, .NET and a high degree of comfort using .NET Core, SQL, RESTful APIs and Microservices
- In-depth understanding and experience in your SOLID Design Principles SRP, Open/Close, LSP, ISP, DIP
- Object-Oriented Design – OOD and a love for writing flexible, scalable, maintainable, and reusable code
- MongoDB and SQL database
- By nature, you are the type of person who works hard and plays hard; you are comfortable working as part of a collaborative team without any Micromanagement

The Reference Number for this position is **NF58948_2024** which is a **Permanent, Hybrid** position based in **Sandton, Johannesburg** offering a cost to company of up to **R900k to R1.18mil p/a** negotiable on experience and ability.
