

Satellite broadband for Ghana schools

Gilat Satellite Networks, a worldwide leader in satellite networking technology, solutions and services, announced today that Dizengoff Ghana Limited, a subsidiary of UK-based Balton CP Limited, selected Gilat to implement a turnkey solution for the delivery of broadband and cellular services via satellite throughout rural Ghana.

Gilat will deploy its SkyEdge II-c hub, which is capable of supporting multiple applications. Gilat's Gemini VSATs will deliver broadband services to schools, while its Capricorn VSATs, in conjunction with its solar-powered CellEdge small cells, will extend cellular service for several leading MNOs in Ghana.

With its new network, Dizengoff Ghana will be able to meet the rural communications requirements of GIFEC as set forth by the Ghana government.
